Winter Parking · off-season mode

399 SEK / 35 EUR per month

OFF-SEASON MODE FOR SEASONAL TRACKS

For outdoor tracks that close for the winter and choose Flex. You pay the full monthly fee during your active months, and only the Winter Parking fee while the track is closed.

- ✓ Pay only when you race: full operation during the season without a full licence during closed months.
- ✓ All data is kept: drivers, track records, lap times, kart fleet and service history stay untouched.
- ✓ Plan and maintain over the winter: review the season's statistics, prepare bookings and log kart service.
- ✓ Easy restart in spring: switch back to Flex or Standard and everything is exactly as you left it.

Winter Parking requires renewal to Flex or Standard for the next season.
